### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

the allowability resides in the overall structure of the device as recited in independent claim 1, and at least in part, because claim 1 recites: "a through hole provided in said circuit board, wherein said thermal fuse is electrically connected to said predetermined circuit via said through hole, wherein the through opening and the heat-conducting insulating member contained therein are free from electrical conductors in the space between the electronic component and the thermal fuse".

The aforementioned limitations in combination with remaining limitations of claim 1 are believed to render said claim 1 and dependent claims 2 and 4 patentable over the art of record.

Combination of Shirakawa and the Applicant's admitted prior art fails to disclose and/or suggest the claimed invention. Specifically, the combination of these references fails to teach and/or suggest that the through opening and the heat-conducting insulating member contained therein are free from electrical conductors in the space between the electrical component and the thermal fuse.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
